What are our future goals for teaching and learning?

There is a transitioning period in some year level/subject areas from Essential Learnings to the Australian Curriculum for Key Learning Areas such as HPE, Technology, HASS and The Arts.

Whole school and individual Professional Development will be directed specifically to these areas with targeted funds towards our school Explicit Improvement Agenda (2014). Additional support will be given to those who are gifted and talented; those who have learning support or social and emotional well-being needs; and students with disabilities.
